

NP Renewal Neighbourhood Plan Steering Group meeting

3/09/26 6pm Meeting Royal Oak

Present: Paul Debenham, Kathy Sadler, Mark Stamp, Nicholas Steedman, Erik Schooneveld, Mike Taylor.

The meeting was focused on working through all the draft posters for the community engagement event to finalise the detail so that we could send them to be printed. The posters included both a number providing introduction and background to the event, as well as one poster for each of the 17 NP policies explaining in simple bullet point the key policy points and asking what we could change. We were conscious as we worked through the detail to try to avoid any bias, or predetermination of possible policy updates. The emphasis is very much on asking the community what they think.

We managed to go through all the current versions of the policy posters, and found we only needed to adjust a few text details across these policies, but were more radical in reducing both the number and the amount of detail in the introduction posters.

The outcome is 24 posters that will have final corrections undertaken by ES. The next step will be pricing for A1 size printing, and then printing in the coming week.
